## FEATURES

- Aluminium column which houses the motor and speed variator.
- A one-piece alloy head containing the planetary gears and the transmission.
- A metal base to ensure perfect stability.
- A powerful motor with a frequency variator which permits the tools to be driven at speeds of between 15 and 220 rpm and the speed to be finely adjusted.
- For pastries - low water content - the quantities of flour must be limited and the speed adapted whilst kneading.

## BE5

Professional planetary mixer with a heavy duty motor, a spiral hook for 1.5 kg of dough and a 5 lt. bowl. It meets all requirements regarding hygiene and safety with its ease of use (bowl activated by a moveable safety screen) and its wide range of speeds.

- For soft pastries - higher water content - the quantity of flour may be increased.
- For cold creams, mayonnaise, liquid pastries in high speed (V 10), change to speed V6 / V7 at the end of the cycle if the beater slows down.
- 18/8 stainless steel bowl, of a capacity of 5 litres.
- A transparent safety guard. This guard also raises and lowers the bowl.
